

M-PLAN Company Profile Report

About Us

Since its establishment in 1996, M-PLAN Sdn. Bhd. has been dedicated to promoting healthy living and empowering individuals through entrepreneurship. Headquartered in Glenmarie, Shah Alam, Malaysia, the company delivers premium-quality wellness products while creating meaningful opportunities for personal and professional growth. Over nearly three decades, M-PLAN has built a strong reputation as a trusted brand in health and lifestyle innovation, serving customers across Malaysia and beyond.

Philosophy and Leadership

Guided by the philosophy of *“making entrepreneurship easier and life healthier”*, M-PLAN integrates health, technology, and business into a holistic platform designed for sustainable success.

Under the leadership of its founder and Managing Director, Mr. Tan Hong Huat, the company continues to expand its influence in the wellness industry. His vision inspires individuals to pursue their dreams through entrepreneurship while improving their quality of life.

Our Business and Growth

Over the past 28 years, M-PLAN has demonstrated consistent growth, supported by its strong foundation in health-focused products and a unique business model emphasizing long-term value creation.

The company partners with leading international manufacturers, including Japan’s largest health supplement producer, to ensure uncompromising product quality. With an unwavering commitment to education, innovation, and community building, M-PLAN has developed a growing network of more than 10,000 active members across 12 regions in Malaysia.

Achievements and Recognition

M-PLAN’s commitment to excellence has been recognized with multiple awards and certifications, underscoring its role as a trusted leader in the wellness industry. These include:

- **ISO 9001:2015 Certification** – Recognized for excellence in administrative processes.
- **Profit-Sharing Entrepreneurship Model** – Offers financial rewards through a unique profit-sharing system.
- **Comprehensive Education System** – Implements a structured, step-by-step talent development program.

- **Partnership with Japan's Leading Supplement Producer** – Collaborates with Japan's largest health supplement manufacturer to ensure top-quality products.
 - **Award-Winning Company and Products** – Recipient of multiple industry awards, maintaining a reputation for quality and reliability.
 - **M-Plan Business Academy (MPBA)** – Launched to cultivate outstanding business leaders and position M-PLAN as a global leader in the health industry.
-

Description

LuxZuki extended line features premium hair and body care products, focusing on nourishment, hydration, and luxurious self-care experiences.

Key Benefits

- Provides comprehensive hair and body nourishment
- Enhances shine, smoothness, and hydration
- Offers a luxurious sensory experience

Main Ingredients

- Botanical oils and extracts
- Natural moisturizing agents
- Protein-rich compounds

Usage

- Use daily as part of personal care routine
- Combine with LuxZuki Shampoo and Conditioner for best results

Frequently Asked Question

[Why is it necessary to take MIKI Prune Extract?](#)

MIKI Prune Extract provides the daily vitamins and minerals required by the human body, helping to maintain a healthy state. Its ingredients include vitamin A, vitamin B complex (B₁, B₂, B₃, B₅), potassium, sodium, calcium, phosphorus, magnesium, iron, zinc, copper, and folic acid.

[Why drink MIKI Prune Extract instead of obtaining nutrition from fresh prunes?](#)

Although nutrients can be obtained from fresh prunes, fresh prunes have a very short shelf life and are prone to decay. MIKI Prune Extract has a higher nutritional value because it has been concentrated. MIKI Prune Extract is more convenient to take daily than fresh prunes and can also be used in cooking to provide a more convenient nutritional supplement for the human body.

[Can diabetic patients consume MIKI Prune Extract?](#)

Yes, diabetic patients can safely take MIKI Prune Extract. The fructose in MIKI Prune Extract is easily metabolized by the human body and does not rely on insulin. Instead, it directly enters the human intestinal tract to be digested and utilized by the human body. In addition, the polysaccharides in MIKI Prune Extract contribute to preventing the occurrence of diabetes.

[Can patients with stomach issues consume MIKI Prune Extract? How should it be taken?](#)

Yes, patients with stomach issues can consume MIKI Prune Extract. Vitamin B complex helps protect the stomach. It is recommended to take 1 tablespoon each time, twice a day. It is best to take it after a meal, not on an empty stomach.

[Can pregnant women take MIKI Prune Extract?](#)

Yes, pregnancy is often accompanied by problems such as anemia, constipation, and gestational diabetes. Taking 2 tablespoons each time, twice daily, effectively improves these concerns. Additionally, MIKI Prune Extract's rich nutritional content is crucial for the formation and development of the fetus, especially with the presence of folic acid (Vitamin B₉).

[How does MIKI Prune Extract assist in iron-deficiency anemia?](#)

MIKI Prune Extract contains iron and copper, which can enhance the synthesis of hemoglobin. Simultaneously, the abundance of vitamin B complex contributes to the production and increase of red blood cells, effectively addressing iron-deficiency anemia.

[Is MIKI Prune Extract suitable for cancer patients?](#)

Yes, MIKI Prune Extract is suitable for cancer patients. It is rich in polysaccharides and phenolic compounds, exhibiting strong antioxidant properties. This helps enhance the body's immune cells, such as alpha interferons and natural killer cells, effectively combating cancer. Additionally, MIKI Prune Extract promotes normal cell growth while inhibiting the growth of cancer cells.

[What benefits does the polysaccharide in MIKI Prune Extract provide to the human body?](#)

Through experimental verification, the polysaccharides in MIKI Prune Extract have been shown to enhance immune function, exert anti-tumor effects, and slow down the aging process.

[My skin looks dull and lackluster. Can taking MIKI Prune Extract help?](#)

Yes, taking MIKI Prune Extract can be beneficial. As a high-antioxidant health food, it reduces damage from free radicals to the skin, preventing pigmentation and skin aging. Additionally, the vitamins and minerals in MIKI Prune Extract contribute to lightening dark spots and improving uneven skin tone. It is recommended to take 3 tablespoons daily for consecutive 2 to 3 months to achieve radiant and fair skin.

[Can kidney disease patients consume MIKI Prune Extract?](#)

Yes, MIKI Prune Extract is crucial for patients with kidney abnormalities or undergoing dialysis. It provides a balanced supply of vitamins and minerals, aiding in the repair of kidney function and replenishing lost nutrients in dialysis patients. The recommended dosage is 1 tablespoon each time, twice daily, taken in small quantities, diluted and brewed.

[Can taking MIKI Prune Extract relieve constipation?](#)

Yes, the water-soluble fiber in MIKI Prune Extract effectively clears intestinal impurities. It also contains zinc and Vitamin B₆, which help to provide sufficient nutrition for intestinal cells, promote regular bowel movements, and ensure smooth bowel evacuation.

[How does MIKI Prune Extract assist individuals with high blood pressure?](#)

MIKI Prune Extract belongs to high-potassium and low-sodium foods, helping eliminate excess sodium from the body. This, in turn, reduces vascular pressure, promotes blood circulation, and contributes to blood pressure regulation.

[How does MIKI Prune Extract lower cholesterol?](#)

The water-soluble fiber in MIKI Prune Extract binds with cholesterol and bile acids, facilitating their elimination through feces. This process reduces the absorption of cholesterol and bile acids.

[Can MIKI Prune Extract help with migraines?](#)

Yes, MIKI Prune Extract is beneficial for migraines. It is rich in minerals, such as potassium, which promotes oxygen transport, quickly delivering oxygen to the brain, thereby improving migraine symptoms.

[Can MIKI Prune Extract help individuals who have had a stroke?](#)

Yes, MIKI Prune Extract is helpful for stroke patients. Strokes are often associated with high blood pressure, high-fat diets, and excessive salt intake, leading to thickened blood and elevated blood pressure, causing microvascular rupture. MIKI Prune Extract with its high potassium content aids in eliminating excess sodium, assisting stroke patients in restoring normal blood pressure.

[Is MIKI Prune Extract beneficial for women who are sensitive to cold?](#)

Yes, women who are sensitive to cold are often associated with anemia or insufficient body weight. MIKI Prune Extract contains balanced vitamins and minerals. Long-term consumption can improve anemia, promote blood circulation, and alleviate the sensation of cold.

[Can MIKI Prune Extract relieve menstrual pain in women?](#)

Yes, MIKI Prune Extract is rich in iron and Vitamin B complex, aiding in increased hemoglobin synthesis, raising the red blood cell count, and preventing anemia. Vitamin B complex also helps stimulate metabolism, improve blood circulation, and alleviate menstrual pain symptoms.

[I've been experiencing frequent shoulder pain. Should I take MIKI Prune Extract?](#)

Besides muscle soreness from excessive exercise, poor blood circulation and acidic body conditions can contribute to shoulder pain. MIKI Prune Extract with its rich minerals helps balance the body's pH levels, alleviating soreness in various parts of the body.

[Can MIKI Prune Extract balance the body's acidity and alkalinity?](#)

Yes, MIKI Prune Extract is alkaline. Despite its sweet and sour taste, it becomes alkaline after digestion, contributing to balancing the body's pH levels.

[Is MIKI Prune Extract a heaty \(warming\) product?](#)

No, MIKI Prune Extract is not a heaty product; it is a moisturizing product. If you feel body warmth after consumption, it is recommended to increase water intake or dilute the essence before consumption.

[Is there an age restriction for taking MIKI Prune Extract?](#)

No, MIKI Prune Extract is suitable for individuals of all ages. It is a natural, healthy, and safe nutritional supplement without any additives, preservatives, or artificial colors—100% pure and natural prune extract.

Are there any side effects from long-term consumption of MIKI Prune Extract?

No, there are no side effects from long-term consumption of MIKI Prune Extract because it is a food product, not a medication.

Can newborn babies take MIKI Prune Extract? If yes, what is the recommended dosage?

The best source of nutrition for newborns is breast milk. If needed, for issues like constipation or jaundice, the recommended dosage for infants over 6 months is 1/2 teaspoon.

Is it suitable for mothers after childbirth or during breastfeeding to consume MIKI Prune Extract?

Yes, it is suitable because MIKI Prune Extract is rich in Vitamin B complex and minerals, which can promote blood circulation, produce more red blood cells, prevent anemia, and replenish lost nutrients during childbirth. It also aids in milk secretion.

Does MIKI Prune Extract need to be refrigerated to keep it fresh?

No, refrigeration is not necessary. Keeping MIKI Prune Extract in a cool place, away from direct sunlight, is sufficient to maintain freshness. If opened and not finished within a month, refrigeration is recommended.

What is the difference between MIKI Prune Stick and MIKI Prune Extract?

MIKI Prune Stick and MIKI Prune Extract are the same except for the packaging design. Each MIKI Prune Stick contains 18g of prune extract, which is a recommended single serving. Each bottle of MIKI Prune Extract contains 280g, with one serving being 18g (equivalent to one tablespoon).

What is the concept of Space food? What makes MIKI Prune Stick special?

Space food is designed for astronauts. MIKI Prune Stick has been selected as aviation food by the Japan Aerospace Exploration Agency (JAXA) due to its rich nutrition and strict hygiene control, confirming its quality in meeting health, natural, and safety standards.
